

THE PROPER DISPOSAL OF LATEX PAINT

In the Town of Swansea, latex paint and latex paint containers (metal or plastic) can be disposed of in your regular trash pick-up if it is done properly. The latex paint must be solidified. If the container is empty or almost empty, you can simply leave the cover off the can and allow the paint to dry out. However, you can solidify it easily and quickly using a Speedee dry mix or clay cat litter, which will absorb the moisture in the paint. Once it has been solidified, you can simply place the can, with the cover off, into your regular weekly trash.

Compact Fluorescent Light Bulbs CFL

The following retailers recycle CFL's:

Home Depot

Bring in any expired, unbroken CFL's, place them in a plastic bag and deposit them both into one of the bright orange collection units in any Home Depot Store in the United States.
